

# BUSINESS GIFTS & INCENTIVES

SCAN WITH LAYAR

## beat street

The Sticky Beats from PSL Canada comes in black or white and has a suction cup that allows users to place the Bluetooth speaker almost anywhere. We like to place it on our foreheads and pretend to be magical, "Get Lucky"-blasting unicorns, but that gets us lots of weird looks around the office. (Apparently, not everyone likes Daft Punk.) The speaker includes a built-in, rechargeable battery, a microphone for hands-free calls, and a USB charging cable. (800) 668-8998

## cold as ice

Things the IceBang from Sweda Company LLC has: a rechargeable battery, a USB-to-micro-USB cable and a 2.5x1.375" imprint area. Things it does not have: any relation to Ice-nine. (Which is good because that didn't work out so well in Cat's Cradle.) The portable external power bank features a power status indicator display on the bottom and includes a silicone binding-band for holding a smartphone. (800) 848-8417

## above the fold

The Reusable White Plastic FoldTop Container from Vistun is printed in high-gloss, high-definition full color and is great for thank-you gifts, candy or snack promotions and more. The reusable, recyclable container is dishwasher-safe, comes in four sizes and has a folding, locking lid. In other words, it's way better than our usual choice of food container. (Cool Ranch Doritos bags don't do so well in the dishwasher.) (800) 873-9133
